Headwaters Tourism has initiated a project that includes the development of a Headwaters regional arts & culture sector database and is being developed by Headwaters Tourism in partnership with the Town of Caledon, Dufferin County and the Town of Erin.

Members of the various arts organizations and individual artists are being asked to input their information for inclusion in the database. This database of arts and culture assets will give exposure to each individual artist in our region and, when viewed as collective, will serve to raise the profile of the entire region as a destination for arts & culture.

For more information about the Headwaters Inspired – Arts & Culture Project and to input your information, please click on the following link <http://headwatersb2b.ca/headwaters-tourism-programs/headwaters-inspired-arts-culture-project/>
